Milwaukee Daily Sentinel.

PUBLISHED EVERY MORNING, (SUNDAYS EXCEPTED,) BY

RUFUS KING & CO.,

AT THE OFFICE,

Nos. 205 & 207 EAST WATER STREET,

CORNER OF WISCONSIN STREET,

IN THE SECOND, THIRD, AND FOURTH STORIES OF LUDINGTON'S NEW BRICK BLOCK.

TERMS:

THE DAILY SENTINEL will be left at the door of City subscribers at Six Dollars a year, payable Quarterly or 50 Cents a Month; or, 12½ Cents a Week, INVARIABLY; IN ADVANCE.

TRI-WEEKLY SENTINEL—THREE DOLLARS a year, INVARIABLY IN ADVANCE, AND THE PAPER DISCONTINUED WHEN THE PERIOD FOR WHICH IT IS PAID, EXPIRES.

WEEKLY PAPER—TWO DOLLARS a year, INVARIABLY IN ADVANCE, AND THE PAPER DISCONTINUED, WHEN THE PERIOD FOR WHICH IT IS PAID EXPIRES. TO CLUBS of Ten or More, TO ONE ADDRESS, the Weekly will be sent for ONE DOLLAR A COPY.

TO OUR ADVERTISERS.

IN ORDER that there may be no misunderstanding in relation to Advertising, we here state the rates determined upon in our daily papers, from Jan. 1st, 1851:

1 square (per year)	$12 00	1 square,	2 weeks,		$2 75
1 " 9 months,	10 50	1 "	1		1 50
1 " 6 "	8 00	1 "	5 times,		1 38
1 " 3 "	6 00	1 "	4 "		1 25
1 " 2 "	5 00	1 "	3 days,		1 00
1 " 6 weeks,	4 50	1 "	2 "		0 75
1 " 1 month,	4 00	1 "	1 "		0 50
1 " 3 weeks,	3 50				

Twelve lines Nonpareil (or less) make a square. Leaded Advertisements, "after reading matter," 50 per cent. advance on the above rates.

One sqr. for a year, with a change once a week, $25; 2 sqrs. $100; 3 sqrs. $50; 1 sqr. with a change every day, $50; 2 sqrs. $100; 3 sqrs. $50; 1 sqr. with a change every day, $25. DAILY PAPER NOT REQUIRED. No paper will be discontinued (unless at the discretion of the proprietors), until all arrearages are paid.

Persons wishing to discontinue their yearly or casual advertising, must give notice at the Counting Room. All yearly advertisers discontinuing their advertising before the year is out, will be charged at the above rates.

The privilege of Annual Advertisers is limited to their own immediate business, and all advertisements for the benefit of other persons, or on other business, must be paid for at the usual rates.

Communications, the effect of which is to promote private interests, to be paid for at the rate of 50 Cents per square for a single insertion.

In all cases where advertisements are sent in, marked "DAILY AND WEEKLY," they will be charged 50 Cents per square for the first insertion, and 25 Cents for each subsequent insertion in the Weekly.

Advertisements not accompanied with written directions, will be inserted one month, and charged accordingly.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other Iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq the owner of the "Woodworth Patent," shortly after I had advertised my COMPATENT "STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons in lieu of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretended inventors, described in the 16th volume of the Repertory of Arts, invented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some six or seven years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is or any value for the purposes contemplated

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON.

May 19, 1849.

I dare say that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before that could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or place, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

August 20, 1851.-dly JOSEPH P. WOODBURY.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES

Milwaukee Daily Sentinel.

MONDAY MORNING, MAY 3, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore

PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

"Milwaukee and her Interest."

Such is the title of the following article from the Grant County *Herald*, following and commenting upon language held by us some weeks since, relative to the importance of pushing the Rail Road through to the Mississippi:—

Milwaukee should be our great commercial outlet; and to make it such, all our Rail Roads and Plank Roads ought to centre there; our heavy trade ought to go there; and our best market for produce and stock ought to be there. Milwaukee should be distinguished as a city of equal standing with Buffalo, St Louis, or Cincinnati; and its business men ought to be distinguished for their fair dealing and liberality towards all their patrons.

The extension of the Milwaukee & Mississippi Rail Road West to the Mississippi river, will accomplish even more than its friends have promised. This will at once connect Milwaukee with the whole trade West of the Upper Mississippi, and enable that city to become a successful RIVAL of all other places in the West for the *lead trade* of Wisconsin; the export of which far exceeds the aggregate of all other products shipped from the State—lumber excepted. Without the speedy completion of this main thoroughfare, Milwaukee cannot flourish, and with it she will become more and better connected every year. Rail Roads and Plank Roads will soon be be found leading into this great central road, until communications are made with every business place of consequence—and the trading depot of each will be the city of Milwaukee.

This is all true, and it is a truth which should spur our citizens on the most vigorous and untiring efforts to complete the Rail Road to the Mississippi. The work is now so far advanced, the business done on the finished portion of the road so satisfactory, and the promise of rapidly augmenting trade as the road penetrates farther into the interior so certain, that its completion is only a question of time. The present year bids fair to be a most auspicious one for Rail Road enterprises. Money is unusually abundant and can be had on good security at low rates of interest. Rail Road bonds have become a favorite investment with Eastern Capitalists. Under such circumstances we do not doubt that the necessary means can be had to push our Rail Road through to the Mississippi within two years, and thus link together, by indissoluble chains, the interests of our City and State.

A VOICE FROM "OLD KENTUCKY."—The Louisville *Courier*, an able and spirited Whig Journal, thus comments upon the speech of Senator MANGUM in favor of General SCOTT's nomination:

Evidences of the growing popularity of the patriot and soldier, Gen. Scott, come to us by every mail and every mode of conveyance. The speech of Mr. Mangum, Senator from North Carolina, seems to have created a good sensation and produced the happiest effect. Gen. Scott is morally certain to receive the nomination of the Whig National Convention, by an overwhelming majority; and it now becomes us as good and true Whigs, to strive to show which State will roll up the largest majority for him. We believe his election is as certain as his nomination, and Kentucky may be set down as good for 15,000 majority for the glorious old chieftain, no matter whom his opponent may be.

The Troubles of the "Democracy."

We have heretofore made reference to the warfare which the *Democratic Review* is making, in a spirit of perfect ferocity, against those whom it terms the "old fogies" of the party—Messrs. Butler, Marcy, &c., &c. There is another point which is worth attention in these articles from the *Review*, and that is the manner in which it is openly striving for Southern popularity, to the neglect and contempt of all honorable feeling—In a late article, written for the purpose of throwing Gen. Butler out of the number of candidates for nomination, that organ of the "united Democracy" succeed, expresses the opinion that, if the Whigs with General Scott as their candidate,—

It is not difficult to foresee that the day would not be distant when the democrats of the Union would have to storm the federal capital and bring the traitors to the constitution to justice, or else throw themselves into the camp, sword in hand, and fight the battle of the outraged South.

That looks well on paper, does it not? We should not wonder if the *Review* gets a rebuff from some of these gentlemen from South of Mason and Dixon's line and its sycophancy, after the same fashion with that recently administered by a distinguished Senator from the "outraged South" to a like press belonging on our side of the house.

Biennial Sessions.

Biennial sessions of the Legislature have been for several years, clamored for to prevent too much Legislation, and reduce the time spent in General Assembly, and the consequent cost. It has been tried in several States, and we believe in every instance, has failed to produce the desired result. Instead of one session in two years, we have two or three, and the only effect is, by removing the Representative further from his day of account, he becomes more careless of his public duty, and more careful to carry out his own schemes.

We clipped the above from one of our exchanges some days since, but cannot recollect from which one it was taken. There is, however, a great deal of truth in the sentiments advanced. If it were certain that no extra sessions would be called, however, we might very probably favor the proposition; since we think that our State would be benefited materially by having an interval of two years from legislation of any kind.

True it is, that a number of the States have passed laws adopting the system of biennial sessions; but the law is a dead letter. Nearly all of them have held extra sessions, and two more have just taken the same course. An extra session has been called by the Governor of Illinois, and the Ohio Legislature, finding no other way to accomplish the end, has adjourned over to next winter!

ONE IDLE CONGRESS.—Congress has now been in session five months, at an expense to the People of hundreds of thousands of dollars, and as yet has accomplished *nothing*. The Albany *Register*, of the 24th ult. says:—

We give this morning a characteristic *scene* from the proceedings in the House of Representatives. The Homestead Bill was taken up, but in the rambling, excited, political scrimmage which ensued, was never alluded to, or hinted at after its title was read. What a farce such Legislation is.

True enough. And what a "farce" the proceedings of the entire Session thus far have been.

The Washington correspondent of the Baltimore *Sun*, writing under date of April 23d, makes this statement:—

A message came into the Senate to-day, with a letter from the Secretary of War, urging the speedy passage of the Deficiency Bill, and representing that the department cannot go on without it. *The message was treated as a joke.*—The Senate refused to take up the bill, and they take to-morrow for a holiday.

The Senate, like the House, think it "a joke" to talk about business. They have only been five months at Washington, and People must be very unreasonable to suppose that they have had any time yet to attend to legislation. After they have selected the candidates and settled the platforms, of the two parties, for the coming Presidential contest, they may possibly turn their attention to the matters which the People have entrusted to their hands. But certainly not till then! We think the greatest "joke" of the season is Congress itself.

☞The *Commercial* still persists in its statement that the Janesville *Standard* said nothing about hanging the Governor in effigy. We have twice quoted the *Standard*'s own paragraph on the subject, suggesting the hanging in so many words.

The *Commercial* declared that if it supposed such an indignity to the Governor was "seriously contemplated" it would be prompt to condemn the outrage and its authors. Well, it has not only been seriously contemplated, but actually done, and now the *Commercial* speaks of it as "a mark "of respect to Mr. FARWELL" and "a severe and "practical comment on the Governor's Veto by "the People of Green Bay!"

The Governor and the State Loan.

The *Commercial*, "without endorsing," publishes in a condensed form the fictions of the Madison *Democrat* about the State Loan, and adds "a few more of the same sort" on its own responsibility. The first of these is, that "while the Governor was negotiating the loan, as he was afterwards authorized to do, there was an offer in Madison to take the 8 per cent loan at par," &c. It is sufficient to say, in answer to this, that the Governor made no attempt to negotiate the loan till he was authorized so to do by the Legislature, and then accepted the *best* offer that was open to him. The *Commercial* insists further, that "by another remarkable stroke of financial policy, the bonds are made to extend to the 1st of April, five years hence, while they draw interest from the 1st of March," and the Governor, it is intimated, is in fault for this. The Governor was limited by the terms of the law and made the loan in strict conformity thereto.

The *Commercial*'s conclusion is worthy of PECKSNIFF. It runs thus:—

In this plain statement, we have not "set down aught in malice." It merely shows Gov. Farwell's ability as a financial manager for the State. He has so arranged it that the Treasury is out of pocket over $2000—a sum which might have been saved by a grocer's clerk, with half an eye to business. A bar-tender that could not make change to better advantage, would be kicked out from behind the counter by his employer, or ruin the man who retained his services.

No "malice" about that; certainly not. The *Commercial* first invents its facts, draws inferences to correspond, swears the responsibility of the whole upon Gov. FARWELL, gently insinuates that he should be "kicked out" of the People's employment for this trumped-up offence, and comforts itself with the assurance that after all it has set down naught in malice against him!

LAMPLIGHTATIONS OF THE FREE DEMOCRAT.—The "Official City paper" appeared on Saturday without the proceedings of the Common Council. The reason assigned was, that the Clerk refused to furnish them; for which refusal the "City Printer" rates him roundly and charges him with being "Jenny Lind-ized." The Clerk is under no sort of obligation to furnish these proceedings, and has only done so, in previous instances, thro' courtesy. For this, the *Free Democrat* pays him off in abuse. We don't think he will put himself out again in a hurry to do a civil thing for this Smalleyow.

The *Free Democrat* says:—

However, the Council can settle this matter to their own liking. We shall see how long Jenny Lindism will rule this city!

A sensible conclusion. The Council no doubt will settle it to their liking, and if our City is to choose between "Jenny Lindism" and "Black Swanism," we fancy that it will not hesitate long in the choice.

STEAM ENGINES.—At the famous Morgan Works in New York there are now building engines for the following steamers:—

For Hartford & N. Y. Co.,	60	inch cylinder.
" Portland & Boston Co.,	41	" "
" Danube Co. Austria	41	" "
" N. Orleans & Texas Co.,	60	" "
" Long Island Co.,	31	" "

Four for ferry boats, 32 to 38 " "

One for a steamship for the Chagres trade, and one for Havana.

Two splendid engines have just been shipped for Lake Erie, for boats to run in line with the New York and Erie Railroad, 72 inch cylinder, 12 foot stroke.

☞The *Free Democrat* devotes some two columns of editorial to the subject of the City Printing, and seeks to excuse itself to its readers for dosing them at such a rate, in this wise:

We have been obliged to make this article long, to present all the facts in the case. But, if the Jenny Lind Club, of which the Mayor and the *Sentinel* are the official exponents, succeeds, the City will have to pay for their fiddling, and we have therefore thought proper to present the whole case to the Tax Payers.

This excuse is but another repetition of its favorite lie. In the same breath it tavely out of its way to have a fling at Judge HUBBELL, for whom this "official exponent" of the "Black Swan Club" entertains a special hatred. Amiable organ!

LAND GRANTS.—California does not mean to be behind hand in the race for the public lands.—Senator Gwinn has introduced in Congress a bill granting lands for railroads on the following routes:

From Benicia, to Sinsta Balle City; from San Francisco to San Jose; from Sacramento City, to Nevada Bay; from Sacramento City, to Placerville; from Stockton to Moukolumne Hill; from Stockton to Sonora; from Stockton to Agua Fria; from Monterey, to Agua Fria; from San Pedro to Los Angelos; from San Diego, to San Jose; from Los Angelos to Agua Fria.

☞The beautiful American clipper ship "Witch of the Wave," Capt. Millet, at London from Canton, made the passage in 92 days. In 85 days she made the Lands End, but had to beat every mile of the way up the English Channel, against head winds. The London *Shipping Gazette* says that she worked to windward of 400 sail of vessels bound up channel; and we learn from a letter, that not a single vessel on the passage could keep way with her.—*Boston Atlas.*

☞The *Wisconsin* of Saturday evening, under its telegraph head, had the announcement of the arrival of the steamer *Franklin* at New York, with 4 days later news. We give the news by the *Niagara*,—at Halifax on the 28th—on Thursday morning, some days later from Europe than the Franklin could have brought to New York on the 27th. We mention it because a rise in the market is announced, and might mislead the unwary.

BUNDY AGAIN!—The *Wisconsin* again takes notice of the "divisions in the Whig party here," sets down the *Free Democrat* (which got *seven* "democratic" votes to its *one* for City Printer) as the organ of the "dominant section of the Whig party?" is "mortified" to think that the *Sentinel* should have "to play second fiddle," and is full of admiration for its *quondom* horor, "Mormon Booth."

CONFLICTING OPINIONS.—The *Free Democrat* of Saturday angrily attacks the Clerk for giving "two large Jobs to the *Sentinel*." In the next column it abuses the *Sentinel* for "biting such small nibblings." Is it the loss of the "small nibblings," or the "large jobs" that afflicts our neighbor so sorely?

MICHIGAN.—The Detroit *Tribune* states that the Delegation to the Whig National Convention from Michigan are strong Scott men, and that the story that they are uncommitted on the Presidency is all moonshine. The Whig members of the last Legislature unanimously recommended Gen. Scott as the choice of the State.

MUSICAL CONVENTION.—An exchange paper has the following:

MARRIED.—In Shelburne, on the 18th, by Prof Geo. W. Eaton, D. D, Mr. George E. Baker, of the "Baker Family," to Miss Clare Reese, of the "Chenango Vocalists."

☞The Boston *Tu-Day*, edited by CHAS. HALE, says that Boston acquired its name as follows:—ST. BOTOLPH's day is the 17th of June. St. Botolph's town, in the long run, got the name of Bo's town, or Boston. And ST. BOTOLPH's successor, Rev. Mr. COTTON, being first minister of Shawmut or Tri-mountain, this place took the name of Boston.

☞The Senate of Massachusetts have passed a bill to repeal the act of last session, giving to the plurality the power of choosing Presidential electors. The bill in question was passed by an almost unanimous vote last year, and the passage of the present act of repeal gives great dissatisfaction in some quarters.

REVIVED AGAIN.—The Chicago *Journal*, on whose authority we slew three men on the railroad west of Elgin the other day, has seen fit to bring them to life again by the stroke of the pen, and put them in a fair way to recover, altho' they were severely injured.

BUFFALO AND STATE LINE R. R.—The receipts on this new road for the first 15 days of April were over $19,000.

Correspondence of the Sentinel.

WILD vs. TAME LIGHTNING.

GENESEE, Wis., May 1, 1852.

Messrs. Editors:—

Yesterday was, with us, a stormy day, with much thunder, and frequent showers. At about 3 o'clock P. M., the electric fluid was in full play, manifesting its presence, mainly on and about the telegraph, the wires of which are burnt, curled and broken in very small pieces, (samples of which I enclose) for a space of twenty rods, or more—The pieces of wire seem materially lessened in size as will appear on examination, and those persons who were present at the time, affirm that just about the wire, the air was filled with red hot scales. It is very certain that fire was set along the line in several places—in two instances in the straw of barn yards. It happened that I witnessed the destruction of one telegraph post, which was thrown in splinters in all directions, some flying twenty feet or more, and attended by a simultaneous report louder than that of a musket.

The most remarkable circumstance attending this display of nature's fire works, is found in the fact that at several points, as I learn, the wire is broken into small fragments from one-eighth, to an inch or two long, and in many cases these pieces are found to be doubled over and fairly welded together. It is well known that thunder storms, materially effect the Telegraph and for the time being render it useless: but has it ever before happened that the wire has been broken into fragments, curled and melted for a space of twenty, or thirty rods? Yours &c,

W. W. TREDWAY.

City Matters.

Central Rail Road and Ward's Line.

The *Arctic* arrived on Saturday evening at an early hour, bringing some 350 passengers for this port, very few of them emigrants, however.—The business over the line is very great, despite of the competition by the other route. No less than 1000 passengers came over in one train on Friday, and hosts of passengers were waiting at Detroit.

The *Arctic* went on to Sheboygan in the evening, to the great accommodation of a large number of passengers who have been waiting here some days. As soon as vessels can pass the straits, other steamers will be along, so as to fill out the line, and make regular daily trips all around from Chicago to Two Rivers. The Rail Road will be completed to Chicago in a few days.

A PARK ON NORTH POINT.—At the last meeting of the Common Council a proposition was made by Messrs. TOWNSEND, DEDRICK, and other gentlemen to donate some ten acres of land on North Point to the City, for a Public Square and Promenade, on condition that the City fence the grounds and open and grade an avenue leading to them. We think the proposition a very liberal one and hope to see it adopted. It would be a very desirable improvement, and would secure to the City a pleasant and eligible Promenade.

THE JUNATA PATTON.—This vessel got in on Saturday afternoon. She had very tough weather in crossing the Lake, and in the blow of Friday lay at anchor under Fish Point, her crew being compelled to pump all night to keep her free. She will have to be re-caulked and may need a new mast. The expenses of getting her afloat again and putting her in repair will be some one or two thousand dollars.

A WISCONSIN CARGO.—The fine brig *C. J. Hutchinson* took her clearance Saturday from this port, loaded by Messrs. WELLS & HILL with the following cargo; viz, 2087 bbls pork; 229 bbls, 17 tierces, 18 kegs lard; 120 bbls flour: and 2000 dressed staves—the whole valued at $10,125, and understood to be the most valuable cargo that has ever passed down from this lake.

☞A dredging machine is in use at the Washington Navy Yard, which is operated by 2 men, and can bring up, from a depth of 30 feet, one cubic yard per minute, which is discharged into a scow alongside.—*Troy Post.*

We are inclined to think that Capt. HAWLEY's machine, built and in operation here, can beat that work, and give its rival odds.

THREE CENT PIECES.—The comage of a large number has now been completed, and the Treasurer of the Mint gives notice that he is now prepared to exchange them for gold, and to deliver them by express, to persons at a distance. They are put up in packages of $30, 60, and $150.—Why wont some of our public spirited merchants send on and get two or three kegs of these trifles, and put them in circulation?

BOARD OF SCHOOL COMMISSIONERS.—The regular monthly meeting of the Board of School Commissioners will be held at the Office of the Secretary, HAVEN POWERS, Esq., at half-past 7 o'clock *this* (Monday) evening.

ORATORIO OF THE SEASONS.—The grand performance comes off to-morrow evening at the Musical Society Hall. Let no lover of good music fail to attend.

SALE OF HAY AND WOOD.—See the Ordinance in to-day's paper regulating the sale of Hay and Wood in the First Ward. It imposes penalties for non compliance with its provisions.

FOR GREEN BAY.—The schooner *Gen. Harrison* is advertised to leave Chicago, this morning, for Green Bay and intermediate ports.

RAIL ROAD BONDS.—The New York *Express* of the 24th ult, has the following item in reference to the sales of the Rail Road bonds in the Eastern markets:

The extraordinary rise in Erie 1st Mortgage Bonds recently, having now reached a price nearly equalling Government Sixes and wholly owing to a demand from abroad, shows a gradually increasing sense of security in our R. R. bonds. The Erie R. R. besides being so great a favorite in the State of N. Y. as a secure investment, is destined to be considered one of the best securities in the European markets.

ANOTHER FIGHT.—There has been another fight in the Ohio Legislature—this time between Messrs Deming and Watren. Since that State threw itself into Loco Foco hands, such scenes have been altogether too frequent to be creditable.

WAR ON THE WOLVES.—The Grant County *Herald* contains a call for the organization of a company for a wolf hunt. These animals it would seem are getting troublesome to woolgrowers.

LARGE CARGO.—The *Keystone State* left Toledo recently a few days since, with the following cargo—the largest that ever cleared from that port: 1963 bbls pork, 74,912 lbs lard, 68,032 lbs sides and shoulders, 8,931 lbs bulk meat, 100 bbls flour, 3 bbls clover seed, and 600 sheep.

MICHIGAN FOR CASS.—At the recent locofoco State Convention of Michigan, every vote was given in favor of the nomination of General Cass.

Robert McClelland and Alfred Williams was selected as delegates from the State at large to Baltimore.

☞Ex-Governor MERIWETHER, of Georgia, and PHILIP TRIPLETT, of Kentucky, both members of the 27th Congress, have died within the last fortnight.

BURGLARY.—The dwelling house of J. W. Brooks, of Detroit, was recently entered at night, and robbed of silver ware, clothing, &c., to a large amount.

☞The following has made the tour of the French and English press:

"The American General, Peyster Watt, has arrived in Paris, on a mission from the government of the United States, to study the weapons of the French army, and especially the rifles of the chasseurs of Vincennes. His said that a corps of rifle men upon the same principle is about to be established in the United States."

"The American General, Peyster Watt," is, according to the New York *Times*, "none other than Mr. Frederick Watts Depeyster, a worthy gentleman of Dutchess county, connected in some official capacity with the militia of this State, and now travelling in Europe for his own amusement."

ICE IN LAKE ST. CLAIR.—A telegraphic dispatch from the Captain of the brig Buffalo bound up, says he tried to enter Lake St. Clair, but found it filled with ice, and he had to return to Detroit.—*Chicago Erithme*, 1st inst.

"NOW AND THEN."—Our friend SCHUYLER COLFAX, the accomplished editor of the St. Joseph Valley *Register*, who was a Delegate from Indiana to the last Whig National Convention, and is also a Delegate to the next, holds the following language in reference to the attempted dictation of a few Southern ultras at the Whig Congressional Caucus held in Washington, a few days since:—

Four years ago, we were a member of the National Convention which nominated Gen. Taylor for the Presidency, and the eventful scenes of that exciting session we shall never forget. Northern men insisted that the Convention should adopt some platform, which would render the position of the nominee more definite on the question of Slavery. Right well do we remember how Southern men resisted that demand.—We must take him on trust, was their argument, and we did. Some Northern Whig Delegates bolted and opposed, instead of supporting, the nomination. But they found that Taylor was stronger with the masses at the North—the men whose votes really make the Presidents—than he was with the politicians—and the tide swept on in his favor, until on the day of the election, he received nearly enough electoral votes from the Northern States alone to elect him. Now, tho there is no slavery agitation, though not even the most ultra Free Soiler has attempted to change a solitary letter of the Compromise acts—though Congress has gone through the useless, time-wasting ceremony of re-endorsing them—ultra Southern Whigs demand that at every Whig meeting, no matter for what purpose assembled, they must "agitate" to put down "agitation" that does not exist—and must make men resolve that they are delighted with the medicine that they have swallowed, not because they admire its taste, but because a majority, the governing power of the Republic, decided that it was necessary. All this is aimed at Gen. Scott, whom they suppose will be the Whig nominee, precisely as the demand for a platform was aimed four years ago at Gen. Taylor. Northern Delegates bolted then, because their desires were not gratified.—Possibly Southern Delegates may bolt next summer for the same reason. But these last will find, before election day, as the first did, that the Whig nominee is stronger with their constituents than they had supposed; and that the People, unlike the politicians, believe that "from the man who never lost a battle nor ever failed in a duty, who never paused on the field, nor ever, in his service, labored for less than his whole country, there is required no new test of fidelity, and no fresh pledge of patriotism."

From the Galena Gazette.

GENERAL SCOTT.

The Testimony of all his old Companions in Arms.

Mr. EDITOR:—In your paper you speak of Gen. Scott having been much in the northwest, and say that he is known to many of our old citizens here. I knew Gen. Scott at Rock Island in 1832, but I knew him better in the last war, as I was under his command at the storming of Fort George, where he led the advance in person, and took the Fort. I can tell the people here, that there never was a braver soldier, or more noble minded man than Gen. Scott. He was always very kind to the soldier, and always did his duty. I saw Gen. Scott again at Rock Island in 1832, when I was in Beattie's Rangers in the Black Hawk War, and he greeted me as an old companion in arms, and treated me very kindly.—Some say he is overbearing, but as an old soldier who has served under him and known him for forty years, I say he is a gentleman, a patriot and a soldier, whose brilliant exploits, and uniform kindness and personal attention to the wants and comforts of all under his command, especially to the sick and disabled, and whose prompt, humane orders that the persons and property of prisoners and inhabitants of the conquered town of our enemies must be respected and inviolate, have conferred imperishable glory on the American name.

Yours, DAVID JAMES.

Sinsinawa, Jo Daviess Co., Ill., Apr. 8, '52.

Such is the universal testimony of the warworn compatriots of Gen. Scott—of men who have no selfish ambition to gratify, and who, with him, have been through "times that tried men's souls," and proved the man. No military commander ever retained more of the grateful regard of his old companions in arms than Gen. Scott. While on a recent trip East and South, it was our fortune to meet a good number of the veterans of 1812, many of whom, in their own affectionate language, "were going to see their old Commander and shake him by the hand once more, perhaps for the last time." "But," said they, "we want to live long enough to vote for him for President—he deserves it of us and his country."

Having occasion to call on a friend one evening in Washington, at which a number of prominent Congressmen were boarding, the subject of the Presidency was brought up, and the respective claims of Cass and Douglass were pretty warmly discussed by our political opponents, when, all of a sudden, they changed the topic to the Whig candidates. As is usual everywhere, these locofoco Solons were unanimous in their preference of Mr. FILLMORE, and unscrupulous in their detraction of Gen. SCOTT. Among the company present, was a grey haired, modest looking gentleman of sixty-five, who had been intently listening to the conversation. While the discussion was confined to Cass, Douglass, and Fillmore, this old man remained undisturbed, but as soon as the name of Gen. SCOTT was defamed, his eyes sparkled, and the injured feelings could be seen rising to resentment within him. Still he replied not. Our opposing friends had indulged in their reflections upon the "Old General," farther than they were warranted by a strict regard to truth, when we called their attention to the facts commented upon. This was enough. The old man could stand it no longer.

"You are right, young man," said he turning to us, *"I was with Gen. Scott at the time; I know that he perilled his own life, and, although a prisoner himself, he dared the British officer to do his worst, and told our Irish fellow prisoners not to answer any of the inquiries; that he would see them protected and rescued or loose his own life in the attempt.* It would have done these men here, who abuse him—it would have done them good, to see him bend the lion in his own den, in defence of these men. I know all about it, for I was there. I never was a Whig, but if I live, I shall vote for Gen. Scott. No man can abuse him in my presence," and he went on in a vein of impassioned eloquence, on that and other incidents of the war of '12 that effectually silenced these semi-statesmen.—*Detroit Tribune.*

NEW'S BOY WIT.—A gentleman crossing one of the New York ferries was accosted by one of those peripatetic venders of cheap literature and weekly newspapers, who are to be found in shoals about all our public places, with "Buy Bulwer's last work sir? Only two shillin." The gentleman willing to have a laugh with the urchin, said, "Why I am Bulwer myself? Off went the lad, and whispered to another, at a little distance, exciting his wonderment at the information he had to impart. Eyeing the pretended author of Pelham with a kind of awe, he approached him timidly, and holding out a pamphlet, said, modestly, "Buy the Women of England, sir? You're not Mrs Ellis, are you?" Of course the proposed sale was effected.

AN ACT

To amend title tyenty-two, chapter eighty-six, section seventeen, of the Revised Statutes.

The people of the State of Wisconsin represented in Senate and Assembly, do enact as follows:—

Sec. 1. That title twenty-two, chapter eighty-six, section seventeen, of the Revised Statutes, be, and the same is hereby so amended that the demand for a jury may be made at any time between the joining of issue and the commencement of the trial, notwithstanding an adjournment of the cause may have intervened.

Sec. 2. This act shall take effect from and after its passage.

Approved, April 3, 1852.

AN ACT

In relating to the admission of attorneys.

The People of the State of Wisconsin represented in Senate and Assembly, do enact as follows:

Section. 1. That any citizen of the United States authorized to practice as an attorney in the supreme court of the state of Illinois, may be admitted to practice as an attorney and counsellor and solicitor in chancery in all courts of record in this state, on motion, signed by such person, accompanied with an affidavit that such person is of good moral character and a resident of said state of Illinois.

Approved, April 3, 1852

BUFFALO AND STATE LINE.—The Buffalo *Commercial* does not seek to disguise the fact that that city suffers greatly from the competition at Dunkirk and by the Erie Rail Road. It says:—

Every person familiar with the trade of the city, is aware of the shock it has sustained by the completion of the New York and Erie Rail Road, to Dunkirk. During a year past, the effect of this drain upon our western resources has been very sensibly felt. The farmers of Chautauque and Cattaraugus counties, and the merchants of the neighboring villages, whose only market for the sale of produce and the purchase of goods during the winter months, was formerly in Buffalo, now find another and a more convenient outlet for their wares, and their trade is diverted into another channel. The receipts at the toll-gates of the plank roads are sufficient proof of this fact; for the number of teams bearing farm produce, passing into the city, will be found to have fallen off at least 75 per cent. the past winter as compared with preceding years.

☞The Propeller A. ROSSITER, ashore near the North Pier, was hauled off forty feet last evening, and if the wind continues northly, she will be afloat to day.

Captain EDWARD KELLY, late of the S. F. Gale, has purchased one third of the Rossiter, and he will hereafter, be "master of ceremonies" thereon. Capt. KELLY is a good sailor and a right clever fellow.—*Chicago Journal.*

Wine Drinking, &c., in France.

Mr. Parke Godwin, one of the editors of the N. Y. *Evening Post*, who is now travelling in Europe, is writing letters on the political and social affairs of France that are interesting. In reference to the wine drinking of the French people and its effect upon the public morals, we quote the following paragraph:

I have been now some seven weeks in France, and during the whole of that time have seen but six drunken men, three of whom were soldiers, (the lowest class of the people,) one an old beneficiary of the Invalids, and the other two, I am sorry to say, appeared to be Americans. Yet the natives of France, of every age and sex, drink their light wines at all times of the day and night. It is used by them on nearly all the occasions that we use tea, coffee, soda water, spruce beer, brandy, and other slops. At the same time a more sober people than the great body of the French does not exist. In England you may see, among the rich men, many who go about with great Bardolph noses, and cheeks like a sun rising through a mist, (evidences of a thousand punished gallons of strong Port,) and among the poor men, many who are swollen and stupid with bitter ale; in our country, too, there are memorable weeks achieved by the universal love of brandy and water; but in France, amidst innumerable other excesses, you find few drunkards. Now, are not these quite suggestive facts, and do they not hint to our reformers, whose motives are doubtless laudable, that there is a better way, the homœopathic way, it might be named, of attaining their essential purpose? For myself, I am certain, after my European experience, that to repeal our high duties on these light French wines, or encourage the production and refinement of our own wines, would have a thousand fold better moral effect, than any direct attempt to legislate men out of the indulgence of their appetites.

An excellent kind of these palatable and wholesome drinks can be had here for twenty or thirty cents the bottle, while the ordinary kinds are much cheaper. The use of them seems to supersede the use of all other kinds of stimulus, and though they excite the nervous system into a gentle and kindly glow, they seldom tempt to excess. There is not enough of the intoxicating principle in any quantity that a man can reasonably drink to produce a gross intoxication. I have seen, on more than one occasion, a whole bottle taken with breakfast without the least apparent derangement of the drinker's ordinary manner and department. A single do-e of brandy, such as same among us take, imbibed under the same circumstances, would damage one's intellect for the day.

From the Fort Wayne Times.

Kossuthiana.

It is known that Kossuth treated some of his Cincinnati toadies with great insolence and contempt; but no more, probably, than their fawning sycophancy and abject subserviency deserved. A most laughable scene is said to have taken place between him and the Indiana committee, headed by Lieut. Gov. Lane, upon their interview at Cincinnati. We find no account of it in Kossuth organs at Indianapolis, and cannot vouch for its technical accuracy; but it is, no doubt, substantially correct—or, at least, ought to be.

The Lieut. Governor, who is somewhat of a pompous gentleman, and on the occasion referred to, sapsidly "felt the importance of his mission," went up to Cincinnati, at the head of a large committee, to receive the "great Hungarian," and conduct him in state, to the capital of Hoosierdom. Of course, he was "big with a speech," and upon the first opportunity, let it off at Kossuth. He then very humbly and very politely requested permission to introduce the members of the comittee individualy.

"How many comittee?" inquired Kossuth.

"About forty, your excellency," responded Gov. Lane.

"Ah! too much committee, too much committee, too much trouble!" exclaimed Kossuth.

"But, your Excellency," persisted the redoubtable Lieut. Governor, "these gentlemen have come a great distance to do you honor—they are your personal, devoted, and obsequious friends and toadies, and will be greatly disappointed if refused an introduction to your Excellency."

"Oh, well, zen, push 'em along, push 'em along," said Kossuth, with the fortitude of a martyr, placing his right elbow on his hip, and sustaining his right hand in a shaking position with his left.

The first one that approached, Gov. Lane introduced as "My brother, George Washington Lane."

"Never mind ze name," said Kossuth, "push 'em along, push 'em along!"

The next was "Col. So-and-so, one of the heroes of the Mexican war."

"Oh, never mind zat," said Kossuth, "me see plenty of zem, trot 'em along!"

By this time the whole operation had become a broad and ridiculous farce—the bystanders were in a roar—the Committee wondering "what next?"—while the gallant Lieut. Governor of all Hoosierdom and Chairman of the Committee of Reception, mortified, chagrined, crest-fallen and indignant, could no longer maintain his dignity, but turned and left the scene.

The Lieut. Governor took no part in the performance at Indianapolis.

The word "Push 'em along" got out in Indianapolis, and two days afterwards Lieut. Governor Lane vacated his seat as presiding officer of the Senate, and left the city.

The Beauharnais Family.

The Beauharnais Family has been more fortunate than any other of modern times, except that of Bonaparte. Of the two children of the Empress Josephine, the daughter, Hortense, married Louis Bonaparte, King of Holland; and the history of her descendants is now beginning—where it will end, who can say? Her son, Eugene, became King of Italy, and married a daughter of the King of Bavaria, by whom he left two sons and two daughters. The eldest son married Donna Maria, the present Queen of Portugal, but unfortunately died a month afterward. The other son, the Prince of Leuchtenberg, married a daughter of the Emperor Nicholas of Russia, who is determined to make him a King as soon as a kingdom can be carved for him. Of the two daughters of Eugene Beauharnais the eldest is the Queen of Sweden; the other is the Ex-Empress of Brazil, widow of the once famous Don Pedro. She, tho' no longer an Empress, yet lives very comfortably at Lisbon with her daughter, now twenty-one years old, who will probably, some day or other, likewise marry a King.

So much for some of the characters in the great drama to be performed in Europe, of which the first act is now in progress.

HEART RENDING OCCURRENCE.—A child, two and a half years old, son Dr. F. BOND, of Sheboygan Falls, was at play about the streets on Tuesday last, and being missed by its parents, search was made immediately, which has been continued from day to day, but as yet nothing has come to light giving the slightest trace to the whereabouts of the little wanderer. The child was last seen at play on the bridge which is in an unfinished state, only spanning one half the river, and immediately above the dam and rapids. It is supposed that the little one must have fallen off the bridge, and if so, the strong current must have carried him some distance below, and it is extremely uncertain about the recovery of the body. Here is a broken home—a darling child is absent—and what adds to the grief of the parents, is the uncertainty of the fate of the little one. A secret hope will lurk in the bosoms of the parents that their child is still alive, and may eventually be restored to them, until the mystery is solved.—We deeply sympathize with the afflicted parents. *Sheboygan Mercury.*

VEGETABLE SERPENT.—According to some Italian journals, a new organized being has been discovered in the interior of Africa, which seems to form an intermediate link between vegetable and animal life. This singular production of nature has the shape of a spotted serpent. It drags itself along on the ground; instead of a head, has a flower, shaped like a bell, which contains, a vicious liquid. Flies, and other insects, attracted by the smell of the juice enter into the flower, where they be caught by the adhesion matter.—The flower then closes and remains shut until the prisoners are bruised and transformed into chyle. The indigestible portions, such as the head and wings, are thrown out by two spiral openings.—The vegetable serpent has a skin resembling leaves, a white and soft flesh, and instead of a bony skeleton, a cartilaginous frame filled with yellow marrow. The natives consider it a delicious food.

THE POPE THREATENING TO LEAVE ROME.—A private letter from Rome states that the recent attempt of Prince de Canino to return to Rome had created considerable excitement.—The Governor of Civita Vecchia refused to allow him to land, but the French Colonel of the troops at that place took him ashore in his boat and protected him at his quarters. Upon the news of his arrival and landing, the Pope immediately notified the French Ambassador that if Canino was allowed to enter Rome, he, the Pope, would leave the city the same hour, and place himself under the protection of the Austrians. The Pope also directed the Minister, in presence of several foreign ambassadors, to have in readiness 1000 men and two pieces of cannon. His travelling carriages were also immediately packed, and every thing kept in waiting for his departure, in case an unfavorable answer to his remonstrance should be received from Paris.

MINING.—We learn that Mr. Pollock and partner have just made a promising mineral discovery at Pigeon Diggings. We hope this report may be correct. We learn also, on good verbal authority, that splendid mineral prospects are being worked at Cassville; and that two or three of these are likely to turn out lead. Thus we see that the class of miners that hang on to their business in old Grant, are being richly rewarded—more richly than those who have left for California—to repent and *do penance* at the close of their day of grace.—*Grant County Herald.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, May 3, 1852.

Receipts from the country very light. Flour is selling at unchanged rates, varying from $3,50 for inferior country to $4,00@4,25 for country and city extra for home use.

Wheat—a few sales at 95@40 for spring, 55@65 for winter.

Barley—33@37½c.

Shipments as noted in our marine list. In addition to the *Hutchinson*, the schooner *Kirke White*, has nearly completed her loading and will be off shortly. The doubtful condition of the straits renders shippers somewhat cautious about sending off vessels. The late gale must have produced a favorable change in that quarter.

Oswego, April 24.—We have a clear sky and bright sun to-day, but a continued cold wind from the north-west. But few vessels have come in, and receipts unimportant. Arrivals from Lake Erie are hourly expected.

Sales of 5,000 bus Toledo wheat, at 79 cts 3,500 do at the same figure from store. Canal freights are active but with without change. Flour is taken to New York at 40c.

Galena, April 21.

MINERAL.—The late re-discovery of a large amount of mineral at Buena Vista, Iowa, has attracted considerable attention that way. Some 200,000 lbs have been raised, and one lot of 100'000 lbs sold to Lightfoot, the smelter at $24 at the diggings. We quote prices same as before, $21 50 and $25 50, delivered. There has been no change among lead dealers, and if the deficit on the Atlantic coast is not made up by importation of the foreign article, an advance in mineral and lead may be expected—but since the present Tariff appears to have been made rather to favor foreign labor than our own, the event of a large importation is more likely to happen.—*Advertiser.*

PROPELLER AT TORONTO.—The amount of produce in Toronto awaiting shipment, according to the *Patriot*, is 66,000 bbls flour, 25,000 bu wheat and 1000 bbls pork. Besides there is a large amount of flour adjacent to the city ready for shipment. The exports of flour from that city during the year, were 130,000 bbls; wheat 62,000 bu; other grain 26,000 bu; lumber, 3s8,203 feet.

BANK PALER AND SPECIE IN GREAT BRITAIN.—The Bank No's Circulation of the United Kingdom of Great Britain, on 20th March, was $165,000,000, a reduction since 21st February, of a million and a half of dollars, but an incre

News by the Franklin.

New York, April 26.

The steamer Franklin arrived at 9 this morning, with four days later news from Europe.

Flour and wheat as last quoted. Corn advanced 6d.

The political news is of no importance.

The last reports from Liverpool, grain showed a small surplus and firm prices.

Among the passengers by the Franklin are Lorenzo Draper U. S. Consul, at Havre and bearer of despatches, also Bishop McClusky.

The Franklin brings 97 passengers and a valuable cargo of French goods, and $86,000 in specie. She was detained one day in Havre in consequence of the state of the tides and did leave till 9 P. M. April 15th.

The steamship Niagara arrived at Liverpool from Boston on the 13th inst.

FRANCE.—All continues quiet. The 10th of May has been fixed as the great review, and distribution of the eagles on the Camp de Mars.

All the regiments comprising the garrison of Paris, and the other regiments of the French army will be represented by their Colonels and deputations. On the 9th a fete will be given at the Rue Militaire by the French army to the President, who has accepted the invitation.

More Gold Coming!

New York, April 23,

Letters from San Francisco announce the coming of large amounts of gold by the next two steamers.

The Cherokee will bring $1,500,000, and the following arrival over $2,000,000.

Messrs. Page, Bacon & Co., who will send $500,000 to the American Exchange Bank, here and $76,000 to New Orleans, state that the gold dust is arriving in San Francisco in unprecedented quantities, and that the rains had benefited the old diggings, and made them as rich as any new.

RAIL ROAD LOAN.—A dispatch was yesterday received from Mr. Turner, President of the Chicago and Galena Union Rail Road, conveying the gratifying information that 7 per cent bonds of the Co. for the construction of the third division of the Road, have been disposed of, and that he, (Mr. Turner) was to leave New York for this city, yesterday. We learn, unofficially, however, that $100,000 of bonds with 10 years to run were taken at 90 cents on the dollar, and $300,000 at 92 to 95c.—*Chicago Tribune*, 30th ult.

It is the general impression that the seceding members will bolt, in case Gen. Scott should be nominated. Our Whig friends were never in a tighter spot than they are now.—*Mil. Wisconsin.*

Oh yes they were. When a Whig General was encountering a five thrice his numbers in front, and a Locofoco Secretary of War was firing upon him in the rear, it was a "tighter spot" by considerable, but he "land'd them both." *Chicago Journal.*

American Consul at Buenos Ayres.

In mentioning the confirmation of JOSEPH GRAHAM, as Consul at Buenos Ayres, a few weeks since, we gave some particulars of his rather curious public career, and stated that his relations with Rosas had enabled him to exercise an important influence in the affairs of that country. We learn from a letter published in the New York *Herald*, dated Buenos Ayres, February 19, that Graham behaved with much firmness and gallantry during the violent scenes which occurred in the city, on the return of some scattered parties of Urquiza's troops from the battle, in which the power of Rosas was destroyed. It was apprehended that the property of foreigners would not be safe, and Commodore McKeever sent to the American Consulate seven marines and three men as a guard. The letter states that the soldiers commenced breaking into and robbing shops and stores —that they were soon joined by some of the disbanded troops of Rosas, disguised in the same uniform, and that hundreds of black women aided in carrying off the spoils.

As there was no resistance, they came into the centre of the city, breaking open those stores which contained the most valuable goods. The owners of those near the Consulate became much alarmed, and begged Mr. Graham for protection. His answer was, "I have but seven men, but get the permission from the acting Governor, Governor Guido, and I will protect your store, and it is in my power." This was soon procured, and Mr. Graham, placing himself at the head of his "grand army," seven United States marines, with Mr. Walker, United States Midshipman as his aid, and a French batter, Mons. Bazil, as a volunteer, marched through the neighboring streets, leaving, as a "corps de reserve," the three sailors in his office. They arrived at the point where they robbers were destroying the shops. Two men, well mounted, got off their horses, and attempted to force one of the doors. Mr. G. shouted to one of the robbers to desist, they sprung to their horses, but in a few minutes returned, with some twenty five or thirty others, all well mounted, who with their guns and lances pointed, came galloping at full speed towards the little band.—Mr. Graham called upon them to halt, but they came up to within thirty yards, and some of them fired, but fortunately without effect. The word was given to our marines to fire, which they did to such good purpose that four men fell dead, and the others wheeled and ran. At this a tremendous shout was set up by the shopkeepers, who were looking out from their places of security. This was the last check the robbers received, and the first shot fired of them in the city. Immediately after, the citizens, principally the foreigners, armed themselves, and shot at the marauders right and left. It is estimated some three hundred were killed, and the sacking put an end to. General Urquiza has given his acknowledgements of the service of our marines to Commodore McKeever and to Mr. Graham through our Charge, Mr. Pendleton.—*Public Com.*

GOLD DUST FROM OREGON.—Messrs. Geo. H. Derby & Co., have recently received an order for books from Oregon, with native "dust" accompanying the missive. This flinging dust into one's face over the Rocky Mountains, is a modern feat—not to mention the impudence of the thing. But, then, it is just good enough for Messrs. Derby & Co.; they have no business to advertise in newspapers all over the Union, and thus monopolise the book business. Paying three thousand dollars a year, just to support the press, as they do, is very extravagant: and they deserve to have the dust flung at them! They frequently receive orders for books from California, England, and other ports of Europe, and they have in one instance shipped to Asia Minor, and indeed, to almost all parts of the world where people have learned to read: and to be good enough for them to be pestered with these orders, if they will persist in publishing popular works and then advertising them "from Dan to Beersheba."—*Buffalo Commercial.*

LAKE NEWS.—On Friday night last, the steamer Globe entered Silver creek harbor, where she is ice-bound. In attempting to reach Dunkirk she disabled herself by breaking her wheels, and is now undergoing repairs. She was crowded with emigrant passengers, a portion of whom have left her and taken the cars for Dunkirk and Erie, which was very sensible, both those ports being inaccessible by boats. The steamer Columbia is lying in the ice, a short distance from shore and about a mile above Silver Creek, unable to move either way.—*Buffalo Commercial.*

YOUTHFUL MUSICAL TALENT.—At the exhibition of the proficiency of Mr. Lippert's Piano pupils, given at Warner's Hall on Thursday evening, a daughter of J. B. Rice, Esq., of the Theatre, evinced the possession of remarkable musical talent, and extraordinary skill.

She is destined to make music in the world.—*Chicago Journal.*

SPECIMEN BRICKS.—We noticed the brig Robert Burns unloading a cargo of Milwaukee bricks, near the depot of the railroad depot, now in process of construction, on the north side of the river.—*Ib.*

We learn from a gentleman just returned from the shores of Lake Huron, that in consequence of the protracted winter, the people above are in almost a starving condition, coming from 30 and 60 miles above to Lexington, on foot, for provisions. It will be some time yet before boats can reach them.—*Detroit Tribune*, 27th ult.

Annapolis, April 21.

The officers of the Dutch Frigate of War Prince of Orange lying at this place, have declined the offer of a public dinner, as it is their intention to sail on Sunday for Norfolk, New York and Boston.

A letter from Buenos Ayres, contains the following: The Brazilian Administration sent a note Com. McKeever stating that the American schooner Draco, Capt. ——— had gone from thence to the coast of Patagonia and there raised a crew from vessels loading guano and left Brazil to capture vessels under a letter of marque—the vessel however has no such letter and she was proceeded against as a pirate.

Springfield, Mass., April 23.

A destructive fire occurred this P. M., in what is known as Bent's Block, occupied by Bliss and Horner, as an extensive Dry Goods establishment, and by Blake, as a Millinery store; Hamilton & Chaplin, Dry Goods; S. Taylor, Dry Goods, a large Hosiery establishment and others. The stocks in some of them were wholly consumed, and in others partially—amount of insurance unknown.

Ten Dollars Reward.

STOLEN, from the Bookstore of the subscribers, on the night of April 15th, 1852, seven or eight Bibles and Prayer Books. These books were of pocket size and had gold plated clasps and rims, and were probably taken on account of the *covering* and not the *contents*. The store was entered by burglars in the night, and these, with perhaps other property, were stolen. The above reward, will be paid upon the direction of the thieves, or return of the missing property. ROOD & WHITTEMORE.

THE WORLD'S FAIR
PREMIUM SAFES.
DEPOT,
Green Block, Water St.,
(Between Maiden Lane and Wall Street,)
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURglar-Proof Safes in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof safe; and he has never failed to obtain the highest premium when his Safes has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store) viz: Messrs. Sinclair & Montgres, and Mr. J. S. Chandler, of the Fulton Bank; Messrs. Bowne & Robinson, and Messrs. John Lockwood & Co. in the great fire corner of Liberty an Nassau Streets, and Messrs. Pond & Bowne, on Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder and the Key is no larger than a cent, and can be made unexceptionable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who make the best Fire, Burglar and Damp-Proof Safes combined.

THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public that he has returned from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water*, and not for a hotel at a fashionable watering place. Yet, to the lovers of nature and a quiet summer residence, the public has remarked, besides its Water-cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

CAPITAL.....$200,000.

THIS Company insures property in two classes, designated as Farmers' Department and Merchants' Department, the accounts of which are kept in separate books, there being no connection, other than that the business of each is under the supervision of the same Board of Directors, thus giving the public the advantage of two Companies, with the expense of one office.

Losses in one class can in no way affect the funds of the other, as the Charter provides that each class shall pay its own losses.

FARMERS' DEPARTMENT is confined to farmers' buildings, detached dwellings, and their contents.

MERCHANTS DEPARTMENT will embrace property of more hazardous description.

CAPITAL.....$100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. It will combine all the advantages of the Mutual and Stock system. The profits received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, shall constitute one class, and be entitled to the First Class. Factories, Taverns, Workshops, School-houses, Seminaries, Churches, and all other kinds of more hazardous property, usually taken in the so-called "Farmers' Department," shall constitute the Farmers' Department. This will render the Empire emphatically a "Farmers' Company."

Said farms are mostly prairie with oak openings. Surface, diversified with plains and undulating. Remarkably well watered with spring branches, Bear Creek, and Pleasant Run, with springs. Soil, a mixture of sand, clay and loam, adapted to wheat, corn, barley, and all grains of the climate, and particularly for grazing. English grasses flourish and yield large crops. The extensive forests of prairie and natural meadows, with an abundance of pure water, afford the most favorable opportunities for

Dairy, Stock-Raising & Wool-Growing.

Said farms are situated from one to three miles from Richland City, (on the Wisconsin river,) in a section of country unsurpassed for healthfulness.

The Timbered Lands are choice selections, and are situated on the Wisconsin and Pine rivers, and from one-half to two miles from the Village, where a favorable opportunity (from the abundance of good standing timber, the price of lumber, and the facilities for market,) is offered for a profitable investment in manufacturing lumber by steam power.

☞ Said Timbered Lands will be sold in tracts to suit purchasers. GARWOOD GREENE,
EBENEZER LANE.

Richland City, Wis., Jan. 2, 1852.

☞ Also will be sold at auction, after sale of the above lands, 6 yoke of Oxen and Steers, one pair 5 years old, several good two horse Waggons, 2 set Double Harness, several head of Cows, Heifers and Yearling Steers, a choice lot of Hogs, with four Plows, and a variety of farming tools; also $200 worth of brown thirt'ng and lumber. Terms of sale, six months credit, with 12 ℘ cent. interest.

G. GRÆSSLE'S PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by co-ular inspection of the excellent quality of the same. ENNO MEYER.

Druggist, 374 W. Water-st., 2nd ward.

Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and superior construction recommend this kind of Tile, not only as a fire-proof and perfectly water-proof covering, but above all for its durability. The ridges and channels are only calculated for the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely movable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.

Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

SHELDON'S WATERPROOF LEATHER POLISH!

Do you know that of all the articles manufactured in this city,

SHELDON'S OIL WATER PROOF POLISH

Is attracting the most universal admiration where it has been used? We can produce testimony of the highest respectability, and are confident of yours, if you will but give it a fair trial.

It surpasses everything ever before offered to the World.

It gives a brilliant polish, and is not washed off by Castile soap and water. It is easily applied, and will last as long as your Leather. Ladies commend it very highly for their own, and

MISSES SHOES AND RUBBERS.

Adding to a brilliant lustre the virtue of not soiling the whitest linen. For Gentlemen's

BOOTS, HARNESS, CARRIAGE TOPS,

TRUNKS, PATENT LEATHER AFTER WORN, and Leather of every description.

It is unexceptible of Oil to leather, and not only keeps out water, but preserves the Leather, and keeps it from cracking.

☞ Dealers' attention is respectfully invited to an examination.

Manufactured on Mississippi street, opposite the Eagle Furnace, and for sale by Agents, or by O. P. SHELDON & CO., Buffalo, N. Y., will meet with prompt attention.

STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the American Institute, for cut soap, because it is the BEST SOAP in use. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

We have used Crane's Patent Soap in our families for the past year, and pronounce it fully equal to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at once, or a large oven and half the flues of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

THE TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PARLOR PET is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being equally the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamented, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to Office or Parlor use.

The RADIATOR is the best coal stove ever got up as a radiator of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broken, as at all times be supplied with extra ones, thus silvereding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to call on us before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.
